

C500 Code Cover Pack

£4.79

Product Code: CC002049TB

Overview

The C500 Code Cover fits to the back of the lid of the C500 KeySafe and is there to prevent unauthorised people changing the code. Particularly useful if you use your key safe for a holiday, tenanted or leased property. This cover is only compatible with the C500.

This cover is supplied with one security screw to make changing your code difficult for your holiday guests, tenants or other users.

This pack is supplied complete with the corresponding 1/4 inch hexagonal magnetic security screwdriver bit.

Features

- 1 x Security screw. (Size not provided for security reasons)
- 1 x C500 Code Cover
- 1 x Security Torx Bit
