

Supra S6 Slimline KeySafe™

£42.46

Product Code: 001324(EU)

Overview

This Supra Slimline KeySafe provides convenient key storage for up to 3 keys, depending on the style and length.

This key box is designed with the home or small office in mind. Supplied with a weather resistant cover which doubles as a shroud to keep your keys secure from the prying eye of would-be opportunists, this outdoor key safe is ideal for allowing access to staff, cleaners or family members who can't seem to remember their keys!

This KeySafe is designed for use in conjunction with alarm systems, locked gates and other security measures. For high level security, you may wish to consider the C500 Police Accredited key safe

Looking for spares?

Installation may require a 4mm masonry drill bit. You can protect from tampering with the code changing cover, and protect from the elements with the slimline key safe weather cover

Order through our secure payment gateway before 3:45pm for free next working day delivery.

Features

- Weight: 750g
- Holds up to 3 Yale type keys or 1 Chubb style mortice key
- Over 1,000 possible combinations when using the recommended 5 - 7 digits. You can change your code as many times as you want to maintain security
- Includes a black neoprene weather cover to protect it from the elements which, as an added security feature, acts to shield the KeySafe fascia from view
- Includes a set of installation instructions and a code setting tool which must be used to set or change the code
- Includes fixings to install onto any brick or concrete surface
