

Anti-Tamper Plate for Slimline Permanent S7 and J5 KeySafe™

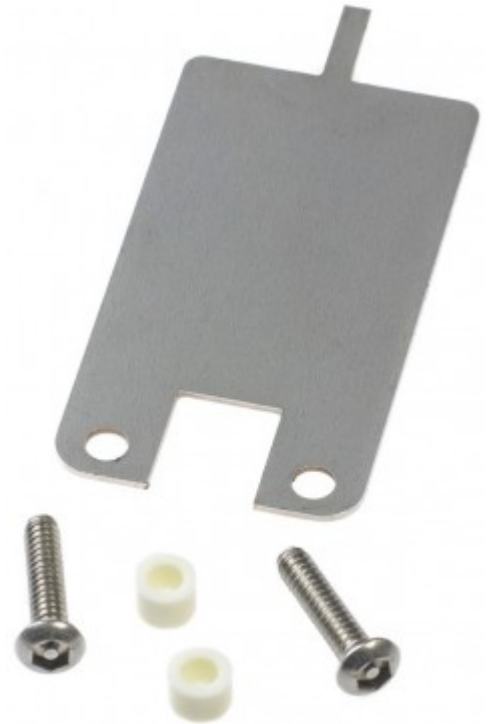

£4.80

Product Code: ATP01

Overview

Compatible with the Slimline, Permanent, Portable, S7 and J5 KeySafes and used to prevent unauthorised code change. Particularly useful for holiday, tenanted or leased property.

Please note - the reason for the spacers is to make sure that when screwing the anti-tamper plate in place, it is not possible to over tighten the screws as this results in the anti-tamper plate bending under the excess pressure.

Features

- 2 x 1/8" Allen key anti-tamper screws (Screw driver bit not included)
- 1 x Anti-tamper plate
- 2 x Plastic spacers
