

## Supra S5 Permanent KeySafe™

£42.46

Product Code: 001409(EU)

### Overview

This Supra Permanent GE AccessPoint KeySafe provides convenient key storage for up to 5 door keys, depending on the key type and length.

This Key safe box is designed for peace of mind. The smallest permanent Key safe box in our range, this external keysafe can be installed very discretely behind pipework or inside meter boxes, which protects from the eye of would-be opportunists, whilst easing your mind that in the event of lost or mislaid keys, you won't be stranded or forced to shell out on a locksmith.

This outdoor key safe is supplied complete with a weather cover and fixings

This KeySafe is designed for use in conjunction with alarm systems, locked gates and other security measures. For high level security, you may wish to consider the C500 Police Accredited Key Safe

Looking for spares?

Installation requires a 4mm masonry drill bit and self tapping masonry screws. You can protect the code changing mechanism with the code changing cover and protect from the elements with the permanent key safe weather cover

Order through our secure payment gateway before 3:45pm for free next working day delivery.
